

The Library of Lost and Found by Phaedra Patrick.

This was a winner amongst our Book Club members.

An easy read about a librarian, Martha Storm, who has a mysterious book arrive on her doorstep. This book contains fairytale stories that she wrote or told her Grandmother in the past.

The book contains a dedication to Martha from her Grandmother. However the date it was written was after her Grandmother's mysterious death!

This leads Martha on a journey to discover the truth about her Grandmother's death.

We as a reader begin to see Martha's character grow and have an understanding of why she always puts others before herself.

Martha finds so much from her past as she looks for answers.

A perfect summer read and one that you won't want to put down as you, like Martha, want to find out the truth.

A story about love both lost and found with mysteries unfolded and some shocking.
